Quick Take

Starting out in 2019, Frisches truly hit their stride in 2021 when Cami, Tobi, Steff and Edgar started working regularly together. The band's music is a statement of their member's passion for the rock vibes of the 60s and 70s, brought into the present with a modern, punchy sound and lyrical depth.

The debut album, *Tales From The Cellar*, is a collection of sonic poetry whose tracks emerged within the walls of their underground rehearsal room. In 2023 the band expanded their lore with the animated video clip of "Witch Hunting", casting a veil of mystery over the group's visual identity.
